

Foam (AFFF) Extinguishers

Aimed at A and B class fires, Foam extinguishers are suitable for general combustibles (paper, wood etc) but have the additional capacity to extinguish liquid fires such as oil based fuels, paints and solvents. Ideal for offices, schools and flammable liquid stores.

Features:

- High Fire Ratings.
- Passed the 35kV electrical conductivity test.
- Stichting Milieukeur approval. (Environmental certification).
- Squeeze grip design for enhanced discharge Control.
- Comes supplied with a wall bracket.
- Internal PE lining up to sealing point no internal threads exposed to liquids to stop corrosion.
- Protective plastic base (except 2 Litre model).
- Quality brass valves.
- Safety relief valve.
- Ergonomic design of discharge nozzle.
- Unique spray nozzle gives optimal droplet size for enhanced cooling and performance.
- Impact resistant pressure gauge.
- Large diameter neck ring for easy inspection.
- Full epoxy polyester coated steel shell for high corrosion protection.
