

Wet Chemical Extinguishers

For class A, B and F fires, wet chemical extinguishers are a must in a kitchen with deep fat fryers.

Features:

- Quality brass valves.
- High fire ratings.
- Squeeze grip design for enhanced discharge control.
- Low velocity nozzle for optimal droplet size and prevention of splash back.
- Full epoxy polyester coated steel shell for high corrosion protection.
- Easy-clean design for kitchen environment.
- Ergonomically designed discharge nozzle.
- Impact resistant pressure gauge.
- Passed the 35kV electrical conductivity test.
- Large diameter neck ring for easy inspection.
- Safety relief valve.
