

# Special Application Extinguishers

## HIGH PERFORMANCE

Model No. MP-9X is charged with a high performance BC powder based on a potassium bicarbonate / urea complex. This BC powder is recommended for large Class B & C fire risk areas where a superior fire fighting capability is required.

In the hands of professionals this portable extinguisher can achieve success comparable with much larger mobile wheeled units. This extinguisher is also particularly effective against fires involving L.N.G, alcohols, ketones and esters which are considered more difficult for conventional fire fighting powders.

PRODUCT CODE: 02110509

## CLASS "D" UNITS

Class "D" units are available in 12kg and 9kg, all include a low velocity applicator and lance to inhibit splash back of molten metal. Top grade extinguishing agent guaranteed results. Ideal for industrial or laboratory protection. CE certified and manufactured in accordance with EN3.
